

## **Tips for Makeup Finishing Spray:**

**Apply all skin care and primers. Now mist your face and allow to dry BEFORE applying makeup. After ALL makeup is done (before mascara) spray again and seal the deal! Now apply mascara. When you spray on your face make sure you don't squint - have a relaxed face. Also before putting on your clothes, spray your "sweat spots"! You will be so impressed on how well the Finishing Spray keeps all sweat at bay!**
